

Nicolas DAVAL

Data Architect & Tech Lead

Baume-les-Dames, France | nicolas.daval@gmail.com | linkedin.com/in/nicolasdaval

PROFESSIONAL SUMMARY

Data Architect and Tech Lead with 22+ years of experience at Stellantis Financial Services. Specialized in cloud data platform design (Snowflake, AWS, dbt, Airflow), software architecture (Java/Spring, microservices, event-driven) and international team leadership (France, Argentina, China, India). Known for ability to simplify complex technical topics, manage crisis situations, and deliver sensitive regulatory projects.

TECHNICAL SKILLS

Data & Cloud: Snowflake, dbt, Modélisation 3NF, Data Vault V2, Airflow, Astronomer Cosmos, DAG Factory, Elementary, AWS (S3, Glue, DMS, API Gateway), Python, SQL

Development & Architecture: Java / Spring / Spring Cloud, Architecture Event-Driven / CQRS, Kafka / RabbitMQ, MongoDB, Oracle / PostgreSQL / MySQL, Docker, Shell / Perl, API REST

Data Quality & Governance: Elementary (Data Quality), Data Governance, Privacy / RGPD

GenAI & Innovation: GenAI / MCP, Kiro (Steerings, Skills, Hooks, Requirements), YAML

Tools & Methodologies: Git / Version Control, CI/CD, TeamCity, Github Actions, Agile / Scrum

PROFESSIONAL EXPERIENCE

Data Tech Lead / Data Architect

2021 - Present

Stellantis Financial Services

- Designed and implemented the Snowflake data platform on AWS
- Specified and developed the EL framework (S3, Glue, Python, Airflow, Snowflake)
- Specified the dbt framework for data transformation
- Evangelized and promoted data culture across SFS
- Managed inshore, nearshore and offshore development teams

Technologies: Snowflake, AWS (S3, Glue), Python, dbt, Airflow, Astronomer Cosmos, DAG Factory, Elementary, SQL

Software Architect & Innovation

2016 - 2021

Stellantis Financial Services

- First AI PoC with IBM Watson
- Chatbot solution study and evaluation
- Participant to Enterprise Business Model definition (From Bian, Open Banking, sfs architecture referencial)
- MongoDB PoC to production ready platform and implementation of the digital data platform (MongoDB + Spring Boot API + Kafka/RabbitMQ ingestion)
- Software architect on multiple topics — Mediation Layer for EKIP package (Line Data)

Technologies: Java, Spring Boot, Spring Cloud, MongoDB, Kafka, RabbitMQ, AWS, Docker, Hadoop, Spark, IBM Watson

Java Tech Lead

2010 - 2016

Stellantis Financial Services

- Enterprise Java application development
- Home-made Java ETL as batch mediation layer
- Complete 4x interest-free payment solution (front office and back office) in full Spring — backend lead
- Development team management on Java and Data scope

Technologies: Java, Spring, Oracle, PostgreSQL, Shell, SQL

Application Integrator

2002 - 2010

Stellantis Financial Services

- Built an industrialization framework in Shell/Perl to accelerate deployments
- Defined the Version Control strategy for Integration/Ops tools
- Java application integration on Unix/Linux and Windows
- Active participation in the bank's technical architecture evolution
- Participation in regulatory audits

Technologies: Shell, Perl, Java, Unix/Linux, Windows Server

Network Teacher (BTS level)

2003 - 2003

ICEP

- Teaching computer networks at BTS level (2-year technical degree)

Apprentice — GIS Laboratory

2001 - 2002

CNERTA Dijon

- Geographic Information Systems laboratory using ESRI software
- Development of an embedded tool for Windows Pocket PC

Technologies: PostgreSQL, Perl, ESRI (ArcGIS), Windows Mobile

Intern / Apprentice — Intranet

2000 - 2001

Établissements Schiever

- Design and deployment of an intranet for stores to place orders and browse the product catalog

Technologies: Web development

EDUCATION

Engineering Degree (Master's equivalent) UTBM	2006
Master's Degree in Computer Science CNAM	2004
CASIE — Enterprise Information Systems Designer & Administrator ICEP Dole	2002
DUT in Computer Science (2-year technical degree) IUT Dijon	2000
Scientific Baccalaureate Lycée d'Avallon(89)	1998

PROFESSIONAL TRAINING

- Snowflake Starter Kit (Snowflake)
- MongoDB University — Parcours Développeur Java (MongoDB)
- AWS Solutions Architect (AWS)
- AWS DevOps (AWS)
- AWS Go Build Data & IA (AWS)
- Spring Framework (Orsys)
- Angular (Orsys)
- Oracle 9 (Oracle)

SOFT SKILLS

- International team management: Teams distributed across multiple sites (France, Argentina, China, India)
- Technical communication: Ability to simplify complex topics and get stakeholder buy-in
- Crisis management: Strong in managing sensitive and urgent regulatory topics
- Data evangelism: Promoting data culture and best practices within the organization
- Banking framework expertise: BIAN framework and banking regulatory environment
